

Frequently Asked Questions

Please note that the following is simply a guide.

If you have a specific question or need to clarify some other aspect about your function / event, please do not hesitate to contact us.

Can we select our own music for the function?

Before your function we will seek details from you on the type of music and specific songs that you want on the night. Additionally, we also seek details on the type of music and songs you don't want on the night.

We carry to all events a search database of our CD collection so we can find the requests easily on the night.

Naturally your pre-booked requests and those made on the night by you and your guests will be catered for, where appropriate. Our DJ is professional and will gauge from crowd reaction what the majority in attendance wants to dance to.

We will go over the details with you before the function, and the DJ will do the same on the night to cover any last minute changes.

Can a Microphone be supplied for speeches?

Yes. All of our systems have at least two (2) microphones.

Does the DJ play Background Music?

Yes. Background Music, is an important part of any function.

Do you provide Karaoke and Jukebox's ?

No. We are a Mobile Disco company. This is our expertise.

Do you work with the venue ?

Yes. DJ Disco's always works with the venue to ensure everything is running to plan.
